

**Lions Project: Preschool Autism Spectrum Disorders
Education and Therapy**

**GUEST SPEAKER
AUTISM SPECTRUM DISORDERS**

Autism Spectrum Disorders. It is a confusing and challenging condition that affects one in 119 children and impacts enormously on their family.

Sadly, there is no known cure. But there is a way of improving greatly the quality of life of these young people – early intervention.

CEO of the Sylvanvale Foundation, Pauline Stanley and her team are experts on the topic of autism and the importance of early intervention preschool education and therapy for children with autism spectrum disorders. Pauline has 28 years experience in the human services sector the majority of them spent in the disability arena.

As a fellow Lion, I recommend Pauline Stanley to all Lions wishing to know more about this very confronting topic. Pauline and her team would be honoured to be guest speakers at one of your next Lions Club meetings. Contact her now on (02) 8536 0101 or (02) 8536 0100.
